

Technical Liaison Committee (as of 6/19/18)

Chair: Evan Reese. Members: Paul Harrell, Jesse Chancellor

This committee will review, question and request information to be provided by HMMH as the MAA-designated technical advisors to the RT. The committee will make recommendations to the RT based on the above, to the extent possible. The role of the committee is to vet information and analyses provided by HMMH to the best of the committee member's abilities as non-aviation research professionals. It is not the committee's role to make technical presentations to the RT, rather that is the role of HMMH and the MAA. The committee will also interact with the PBN Working Group of the FAA, and any other technical bodies of the FAA or MAA, to achieve the goals of the RT.
